

SYTTR FAQs:

1. How do I set my availability as a babysitter on the app?
 - a. You can set your availability on the Home Screen under “quick actions.” This tab allows you to set a weekly availability that will apply to every week. In addition to the repeating availability, you will be able to mark specific days on the monthly calendar with different hours than your set weekly availability. This allows you to maintain your weekly hours while still adjusting specific days where you might have different availability.
2. How and when do I get paid for jobs through the Syttr app?
 - a. Babysitters are paid securely through the app after completing a babysitting job. On the home page, you are able to view your earnings overview which shows the earnings you made that week. On the settings tab, you may click “Withdraw earnings” which allows you to enter bank information, PayPal, or Venmo credentials. From there, you will receive your earnings via your chosen option.
3. What kind of background checks do babysitters on your app undergo?
 - a. All babysitters on our platform undergo a thorough background check via HireSafe. Sitters will be asked to pay a one time fee to cover their background check. Once the background check comes back to the admin, given that it meets our requirements, sitters will be set to begin accepting jobs.
4. Do I need any specific qualifications or certifications to become a babysitter on Syttr?
 - a. There are no required certifications to join The Northshore Nanny, but having them can make your profile stand out! Certifications like CPR and First Aid training are highly encouraged and can increase your chances of being booked—especially by premium families. More experience and qualifications can also help boost your visibility and potential earnings.
5. What is a good hourly rate to set for my jobs?
 - a. Most babysitters on our platform set rates between \$22–\$27 per hour, based on current local trends. You’re free to choose your own rate, and families use it as a guideline when booking. While they aren’t required to match your exact rate, most pay at or near the amount you list on your profile.
6. How do I make my profile more attractive in order to get more booking requests?
 - a. To boost your chances of getting booked, the most important thing you can do is keep your availability updated! Try marking full days or weekends to show flexibility.

Other ways to stand out:

- Add certifications like CPR or babysitting training.
- Upload a clear, friendly profile picture of yourself.
- Write a detailed bio—mention what ages you’ve cared for, what activities you enjoy doing with kids, and any special skills.
- Include accurate years of experience.

PARENT FAQs

1. How do I find a suitable babysitter using this app?
 - a. You can 1. Filter your new booking by date and time, then view the babysitters that are available based on your specifications. Or 2. Post a job on the job board. This is similar to the first option in the way that you choose your booking date and time, number of children, etc. but it differs in the way that the job is accepted. The job board post goes out to all of our sitters and gives them the choice to pick it up. If a sitter accepts the post, their request will go out to you (the parent) to be accepted or rejected. If you accept, the job will go on the sitters schedule.
2. What kind of background checks do the babysitters on your app undergo?
 - a. All babysitters on our platform undergo a thorough background check via HireSafe. HireSafe performs verified, secure employment background checks to ensure that all of our employees are fit to work for Syttr. We place the utmost importance on the safety of our users, which is why we personally vet each and every sitter.
3. How do nanny payments work on the app?
 - a. Nanny payments can be made securely through the app using our payment system. You can add your credit card through the app. Payments are processed safely and securely to ensure a smooth experience for both parties.
4. What happens if my regular sitter is unavailable for a scheduled booking?
 - a. In the event that your regular sitter is unavailable for a scheduled booking, our app allows you to quickly search for and book alternative babysitters, or post a job on the job board based on your preferences and availability.
5. Can I leave reviews and feedback for the babysitters I hire through the app?
 - a. Yes, after each booking, you will have the opportunity to leave a review and provide feedback on the sitters services. Your reviews help other families make informed decisions when choosing a nanny.
6. How does the nanny matching process work on your app?

- a. Our app uses advanced algorithms to match you with sitters that best fit your requirements and preferences. You can also manually search for sitters based on specific criteria such as experience, availability, and location.
